Adaptavist

. AUG '23 - PRES.

Lead UX Designer • Austin, TX

Leading design for ScriptRunner.JS
My focus is on creating resilient, scalable
experiences that bridge complex infrastructure
needs like isolated cloud with usability for
clients like Apple.

As part of this work, I design secure-by-default
workflows, build developer-ready systems in
React/Tailwind, and prototype for performance,
repeatability, and governance across
Adaptavist's family of Scriptrunner products.
