Adaptavist

AUG ‘23 - PRES.

Lead UX Designer • Austin, TX

Leading design for ScriptRunner.JS
My focus is on creating resilient, scalable experiences that bridge complex infrastructure needs like isolated cloud with usability for clients like Apple.

As part of this work, I design secure-by-default workflows, build developer-ready systems in React/Tailwind, and prototype for performance, repeatability, and governance across Adaptavist’s family of Scriptrunner products.
